TOP REASONS

WHY PROFESSIONALS CHOOSE

#1: REAL, BEAUTIFUL FLAME
Our innovative gel fuel cartridges provide beautiful, golden flames that dance and crackle like a wood fire but without the smoke or mess.

#2: NO CHIMNEY, GAS, OR ELECTRICITY
HearthCabinet™ Ventless Fireplaces do not require a chimney, wood, flue, gas line, or electricity. Each unit is self-contained, allowing you to have one virtually anywhere, built-in or freestanding.

#3: SAFETY FEATURES
HearthCabinet’s unique, patented safety and design features ensure the safest fireplace experience possible. They are so safe that they are the ONLY ventless fireplaces approved for use in NYC.

#4: TRUE CUSTOM
Every HearthCabinet™ is handcrafted in Brooklyn and can be custom-designed with our team to meet your project needs.

#5: PERSONAL SERVICE & PROFESSIONAL EXPERTISE
Our staff of architects and designers will work directly with you on your project, start to finish.
WHO WE ARE & WHAT WE DO

HearthCabinet™ designs and individually handcrafts the only ventless fireplaces that use an alcohol gel fuel cartridge system – the safest ventless fireplace fuel system available.

All of our models are designed by an architect-led design team and are handcrafted in Brooklyn by seasoned craftsmen, ensuring high quality, custom products with short lead times.

HearthCabinet™ Ventless Fireplaces have been used in high-end homes, high-rise apartments, hospitality, and commercial spaces across North America by top trade professionals.

HearthCabinet™ Ventless Fireplaces meet the rigorous standards of UL 1370 and are the ONLY ventless fireplaces approved for use in New York City because of their unique safety features.

HearthCabinet™ has been the leader in custom, luxury, ventless fireplaces since 2005.

Single-Frame Design
with Curved Interior

Project by HearthCabinet™ Ventless Fireplaces
WIDESCREEN
42” W x 28” H x 11.5” D

Shown: Model #3030
In Stainless Steel
HearthCabinet™ Ventless Fireplaces’ beautiful, crackling flame is produced by an **alcohol gel fuel cartridge** system. They are clean-burning, eco-friendly, and do not produce smoke or odor.

**No need for a chimney, flue, gas or electricity** – they are completely self-contained units. Our models are free-standing and can simply slide into your mantel or millwork. They are secured with screws through the base of the HearthCabinet™.

Simply unlock the HearthCabinet’s door, place one or two cartridges inside the cartridge holder, remove the cap and **light the gel with a long lighter**, then close and lock the door and enjoy the vibrant fireplace experience.

Like a log, a single cartridge will last approximately 2 to 2 1/2 hours, and can be extinguished at any time with the included snuffer plates. Since there are no gas lines or chimneys to inspect, maintain, or repair, replacing cartridges is all it takes to enjoy a HearthCabinet™ Ventless Fireplace for years to come.

(OPPOSITE)
Model #2010
Shown in Bronze-Powder Coated Steel with WSB Panel Tile

Other Finishes Available
HearthCabinet’s single-use, prefilled alcohol gel fuel cartridges are a far cleaner alternative to wood or gas and a much safer alternative to pourable liquid fuels.

The cartridges create crackling flames like a wood fire, but with no smoke. Like logs, they last approximately 2 to 2 1/2 hours. Simply replace the cartridges as needed.

The fuel is a mixture of virgin isopropyl alcohol (like rubbing alcohol) and water, with a small amount of gelling thickener. It is similar in composition to commonly used chafing fuels or hand sanitizer.

Cartridges come plain or scented. They are available in cases of 8, purchased online, and shipped anywhere in North America.

PERFECT FOR ANY PROJECT
RESIDENTIAL • HOSPITALITY • COMMERCIAL

The warm, crackling fire of a HearthCabinet™ Ventless Fireplace provides the perfect atmosphere for entertaining and relaxing at home.

A welcoming fireplace is also an ideal way to greet visitors to restaurants, entertainment venues, retail stores, offices, and health care facilities. Beautiful fireplaces are attention-grabbing focal points year-round.

HearthCabinet™ Ventless Fireplaces save valuable square footage in multi-story residential buildings and hotels because they do not require flues. That also saves on construction costs.

Property owners, real estate developers, home owners, designers, and architects all benefit from HearthCabinet’s unique safety and design features.

Installing a conventional fireplace can often be either impossible or prohibitively expensive. Wood and gas fireplaces require venting and have expensive construction requirements, but HearthCabinet™ Ventless Fireplaces can be placed virtually anywhere, indoors and outdoors.

HearthCabinet™ Ventless Fireplaces are completely self-contained and come fully assembled. Putting them into place is simple and only takes minutes. Secure your HearthCabinet™ with just four screws into a floor, subfloor, or prepared base.

All HearthCabinets can stand alone or be built into a modern or traditional mantel or surround. HearthCabinet™ Ventless Fireplaces provide great flexibility for design professionals and homeowners.

UL Standard Compliance

HearthCabinet™ has a line of products that are ETL listed/certified in compliance with UL 1370 Standard for Safety: Unvented Alcohol Fuel Burning Decorative Appliances.

The ETL Listed Mark demonstrates compliance to the requirements of widely accepted product safety standards, as determined through independent testing and periodic inspections.

NYC FDNY & DOB-Approved

HearthCabinet™ Ventless Fireplaces are the ONLY ventless fireplaces approved for use in New York City by the NYC Fire Department and Department of Buildings because of their unique safety features, ensuring a safe experience anywhere.

SAFETY, SAFETY, AND MORE SAFETY™

Unique, patented features include:

- A top-hinged, locking front safety door with a rigid mesh screen prevents unintentional access to the flame by adults and children.
- Single-use, prefilled alcohol gel fuel cartridges require no pouring.
- The built-in cartridge holder prevents tipping or leaking.
HearthCabinet™ Ventless Fireplaces come in a range of styles and sizes, but we can also custom-design one for any project from your drawings or ours.

A variety of metals, colors, finishes, and interior and exterior details are available to make a HearthCabinet™ match any space or design, whether it’s modern, transitional, or traditional.

**RETROFITS**

Old, non-functioning fireplaces don’t have to stay that way. Simply inserting a HearthCabinet™ Ventless Fireplace into an existing fireplace or mantel is an elegant solution that eliminates the need for costly masonry work or flue inspection and repairs.

HearthCabinet™ Ventless Fireplaces can be custom-tailored to your existing fireplace or mantel dimensions.

SPEC SHEETS & DRAWINGS PROVIDED FOR ALL MODELS

Our Design Staff will provide custom drawings for your project.
We have used HearthCabinet™ Ventless Fireplaces in many projects so when it came time to redesign my summer home in Montauk, using a HearthCabinet™ fireplace was a no brainer. Since the fireplace is ventless and doesn’t require a dedicated gas line, it makes it extremely versatile to use anywhere. I installed the fireplace in the master bathroom. The fireplace is a dramatic statement piece and is functional too by bringing another layer of warmth to the bathroom or any room it’s being used in. I am very happy with the service I received and the product itself. I will be specifying a HearthCabinet™ fireplace again for future projects.

Vicente Wolf, Interior Designer
Vicente Wolf Associates

The HearthCabinet™ sets the mood for the private dining room at the restaurant. There are always a lot of requests to be seated near it. Everyone involved with the project was really happy with the design process and customer service.

Lindsey Bonime, L. bonime design
Hospitality & Residential Designer

...We were going to miss our beautiful working fireplace when we moved from our pre-war home. Lucky for us however, while visiting a friend, we discovered a beautiful, cleaner and more convenient alternative, HearthCabinet™!

S.C. – Residential Client
**The HearthCabinet™ fireplace** was a great addition to my latest project! Everyone on staff was helpful and generous with their time and expertise... HearthCabinet™ was the easiest and most efficient way to introduce the unique quality of a fireplace... I couldn’t be happier with the way it turned out!

![HearthCabinet Fireplace](image)

**We are constantly impressed** with the team at HearthCabinet™. Not only do they have a great eye, they are a joy to work with. Can’t be beat!

Challie Stillman, Design Director
Resource Furniture - Custom, Designer Furniture

**Many homes in southern California...**
HearthCabinet™ Ventless Fireplaces provides a practical solution... I can say without a doubt that this product is not only gorgeous but also practical and efficient. It’s sheer flexibility makes it suitable for a variety of design projects... We look forward to continuing to work with such an amazing product for years to come!

Annika Sandberg, Interior Designer
Hospitality! LA Design Mart

**HearthCabinet™ has been a fantastic resource** for us. Many of our clients want fireplaces but could never have a vented unit and HC is the safest ventless fireplace on the market. We use them all the time and will continue to do so.

Mike House, Architect
Raad Studio

**HearthCabinet™ provides a superior product...** and (they) have made it into many of the most discriminating buildings in Manhattan and beyond. Perhaps more importantly, all their products are customizable and their sales and install teams are easy to work with. We have collaborated with them on many projects; I can recommend them without reservation.

Katherine Perino, Business Development Manager
Chesney’s Crafter and Designer
